

Inconel - Overlay welding

Inconel is used where you require high corrosion, wear and erosion resistance.

We can clad Inconel on various steel alloys.

We are specialist in doing both manual and automated overlay welding processes.

We have state of art equipment to do effective and high quality work.

Our personnel have been specially trained in this process and are fully certified.

Our welding department can define the optimum solution for your special welding needs.

We offer both workshop and onsite cladding and machining.

Qualifications:

- API spec 6A
- NACE: MR0175 - DS/EN ISO 15156
- ASME IX
- DNV OS F-101
- NORSOK M-601
- Etc.

Examples:

- End fittings for flow lines and risers
- X-mas trees
- Valves
- Hubs
- Flanges
- Process equipment as: vessels, cyclones and heat exchangers etc

Base materials:

- ASTM A694 F65
- AISI 8630H
- Super Duplex
- Etc.
