Overlay Welding - On-Site Machining - OneStop

Furmanite and SubCPartner offer on-site repair of:

- Flanges
- Valves
- Coolers and exchangers
- Tanks and caissons
- Decks and base plates / foundations
- Cyclones

We do complete repair from early phase to commissioning:

- Planning
- Welding
- Heat treatment
- Machining- incl. flange facing, milling, pipe cutting & bevelling, journal turning, drilling, line boring, stud drilling, laser measurement
- Control and NDE
- As-built dossier
- Third party approval

Welding applications:

- WPQR and WPS
- Overlay welding
- Multi alloys
- Sour service

Machining applications:

- Turning machines for all sizes of flange facing
- End-mounted turning machines
- Heavy duty drilling and boring machines
- Orbital milling machines
- Linear and X-Y milling machines
- Laser measuring Equipment

Branches with potential advantages:

- Offshore oil & gas
- Wind turbines
- Refineries
- Petrochemical plants
- Biotech
- Gas processing plants
- Construction and shipyards
- Power Industry
- Defence
- Transport

We do it - better than new!
